

TABLE OF CONTENTS

A table of contents (TOC) is a helpful navigational tool found in books, reports, or other lengthy documents.

It provides a structured overview of the document's chapters, sections, or topics in a clear and organized manner. It allows readers to quickly locate specific information or jump to different sections of interest.

The table of contents typically includes headings and page numbers, enabling readers to easily navigate through the material, find relevant sections, and get a sense of the document's structure.
